Profile

I have been learning to code using Swift with X-code Beta for around a year, I've also made some basic apps with simple user interfaces. I was completing a Bachelor of Engineering degree (Honours), but on reflection I am not sure if this is the correct career choice for me at this present time. I originally trained as an Electrician to which I am qualified and registered, I also have over thirteen years' experience within the electrical industry and with a strong customer facing background. I am always willing to learn new skills.

Key skills

- **Active Listening**
- **Communication**
- **Computer Skills**
- **Customer Service**
- **Interpersonal Skills**
- **Leadership**
- **Management Skills**
- **Problem-Solving**
- **Time Management**
- **Transferable Skills**

Employment History

Jan 2011-May 2013

Working for BT/Openreach (Field Engineer) through Hays on a temp contract, day to day duties at Openreach involve a face to face customer role installing and maintaining phone lines on the network.

May 2013- August 2013

For this period I worked for Search recruitment agency on a new-build NHS facility in Harrogate for cancer outpatients. My duties there were first fix and some second.

August 2013- Present

Working for Skipton properties Ltd, I have been working as a Scaffolder/ Supervisor on a full-time basis while I completed my Bachelor of Engineering degree (Honours). Day to day duties include erection and dismantling scaffold, arranging plant work for future projects and costing work within our team.
